

# TruVision Navigator 7.0

TruVision video management software

## Overview

TruVision Navigator 7.0 provides users of the TruVision NVRs, DVRs or IP cameras with an intuitive and feature rich video management package. This license free tool provides a unified user interface for configuration and management of a TruVision video system.

Whether analog, HD-TVI or IP, newly launched or legacy, TruVision Navigator leads the way.

## Rich feature set

In addition to the already rich feature set, TruVision Navigator 7.0 contains new features and enhancements that contribute to further increasing the user friendliness and efficiency of the software and adds integration with access control.

Key features include: auto discovery of recorders, cameras, encoders on the LAN, client/host architecture, saving custom views, extensive user rights management, trigger relay outputs of recorders and IP cameras, display disk analysis of the selected camera in the time bar, dewarping of TruVision and third party 360° cameras, detachable tabs, event video monitor, maps, health diagnostic reports, exporting snapshots and video files, and many more.

## Use of TruVision Navigator & scalability

TruVision Navigator is best suited for small or medium scaled as well as multi-site installations where you either actively manage a small amount of cameras with a small amount of operators, or when passively managing a larger amount of cameras with a small amount of operators. The device tree architecture with the new logical view feature allows the user to create location folders and/or camera lists based on location or application. This enables an easy management of multiple locations and recorders.

TruVision Navigator can be deployed as a standalone system or as a client/host application, with clients that connect to the host database.

The scalability ensures that users can easily expand and consolidate video surveillance systems without drastic changes to their existing security setup.

In case of solutions where large camera quantities are being actively managed or monitored by a large amount of users simultaneously, it is recommended to work with an UltraView solution.

## Standard Features

- License free software with scalable architecture, from standalone to multi-site host/client applications
- Live view and playback of TruVision devices (see list for supported models)
- Dedicated event monitor for live display of camera events and alarms
- Graphical maps that display camera and door locations and allow interactive camera control
- Logical camera view to group cameras with the same function or similar content
- Saving & calling up public or private custom views
- Time bar disk analysis per camera for efficient video retrieval
- Built-in dewarping for 360° cameras
- Support of a USB joystick (TVK-400-USB) for easier navigation and PTZ control
- Integration with access control via TruPortal
- In-tile webbrowser support
- Embedded device discovery and management tool with auto discovery of IP cameras, recorders, encoders and IFS switches
- Logical event filtering
- Remote device configuration and client software distribution
- Extensive health diagnostics reports & network statistics per device
- Extensive user management for efficient and secure administration
- Tampering monitor to highlight scenery changes
- Audit history reports
- Server offline mode keeps the client operational when the connection with the server is lost

## Specifications

### Supported recording platforms/devices

All IP cameras series and encoders: TVA, TVB, TVC, TVD, TVE, TVF, TVP, TVW, UVP Series
TruVision NVR 10 (TVN 10)
TruVision NVR 20 (TVN 20)
TruVision NVR 21 (TVN 21)
TruVision NVR 21S (TVN 21S)
TruVision NVR 21 Plus (TVN 21P)
TruVision NVR 50 (TVN 50)
TruVision NVR 22 (TVN 22)
TruVision NVR 22S (TVN 22S)
TruVision NVR 22 Plus (TVN 22P)
TruVision NVR 70 (TVN 70)
TruVision DVR 10 (TVR 10)
TruVision DVR 11 (TVR 11)
TruVision DVR 12 (TVR 12)
TruVision DVR 41 (TVR 41)
TruVision DVR 42 (TVR 42)
TruVision DVR 60 (TVR 60)
TruVision DVR 12HD (TVR 12HD)
TruVision DVR 15HD (TVR 15HD)
TruVision DVR 44HD (TVR 44HD)

### Recording platforms that are not actively supported

TruVision DVR 20 (TVR 20)
TruVision DVR 40 (TVR 40)
GoVision (2)
DVSRxU
SymDec/SymSafe
DVMRe/StoreSafe
